

METAL POLES WITH RETURNS INTO THE ROOM

Customer Name: _____

Contact Telephone Number: _____

RETURN LENGTH (Please state required length)

Unless otherwise requested we will return the pole no more than 200mm along the wall

Return length in MM OR INCHES

MEASURING BAY WINDOWS Identify the type of bay window you have, take the measurements as indicated of the actual wall. We will work out the angles and lengths required allowing for bracket standoff etc. (alternatively write in the actual angles on the appropriate diagram if you know them)
All poles are supplied in 2 parts, joining with a bracket in the middle of the centre window, all poles are supplied oversize to be cut down on site.
